

Arriva Transport Solutions Ltd working in partnership with the NHS is looking to engage with existing Voluntary Car Service (VCS) drivers and new VCS drivers, for non-emergency patient transport. VCS drivers will help transport people to and from their routine hospital and clinic appointments.

This is an exciting opportunity to make a difference in the community. Most journeys are made in the local area and journeys are arranged in advance by our non-emergency patient transport services planning team.

To become a voluntary car driver you must:

- Hold a full clean driving licence and have at least 12 months driving experience
- Own a suitable 4-door car (with valid MOT and insurance)
- Be contactable by telephone
- Not suffer from a condition that prevents you from driving
- Undertake an enhanced DBS check

Whilst you will be required to use your own a vehicle mileage rate will be paid. If you have time to spare and what it takes to transport patients in a safe and timely manner whilst maintaining high standards of care then we want to hear from you.

**If you are an existing VCS driver or are interested in becoming a VCS driver, contact 0191 525 2027 to reserve your place, stating that you are a NEW driver. This line will be manned from 9.30am to 2.30pm Monday, Tuesday, Thursday and Friday of each week.**
